|  |                                    |  | Policy Title: False Fire Alarm Policy Policy #18 |                   |  |        |                 |
|  |                                    |  |  |                   |  |        |                 |
|  |                                    |  |  |                   |  |        |                 |
|  | False Fire Alarm Policy Policy #18 |  |  |                   |  |        |                 |
|  |                                    |  |  |                   |  |        |                 |
| When the fire alarm goes off at school, all classes are required to line up and evacuate the building. If one of the fire alarm pulls is pulled in innocence by a student, that student will call their parents and let them know what happened. They will also talk with the Fire Department if they come, to be educated on why you don't pull the fire alarm. |                                    |  |  |                   |  |        |                 |
|  |                                    |  |  |                   |  |        |                 |
| If it is found that the fire alarm is pulled in malice or for foolish reasons the student will also be suspended for one day.  |                                    |  |  |                   |  |        |                 |
|  |                                    |  |  |                   |  |        |                 |
| For each customer caused false alarm, the alarm company charges Ensign Learning Center \$25.00. For this reason, if any of the fire alarm pulls are pulled by a student, Ensign Learning Center will charge that student or their parent \$25.00 to cover the cost.  |                                    |  |  |                   |  |        |                 |
|  |                                    |  |  |                   |  |        |                 |
